

Lecture Time Table for Monsoon 2026

Ver 2: 07.08.2026

	8.30-9.55 AM (1)	10.05-11.30 AM (2)	11.40-1.05 PM (3)	1-2 PM	2:00-3:25PM (4)	3:35-5:00PM (5)	5:10-6:40PM (6)
Mon (A)	Computer Problem Solving- H101 Earthquake Resistant Design of Masonry Structures- H103 Algorithm Analysis and Design- H105 CMOS References and Regulators- H201 Digital Image Processing- H203 Data Analytics I- H205 Design Thinking- H301 Quantum Error Correcting Codes- H302 Computer Programming-(Section A, B&C)- SH1, SH2 & SH3	Quantum Information Science- H102 Signal Processing- H105 Introduction to Biology- H201 Computer Aided Drug Design- H202 Chemistry Topics for Engineers- H203 Dynamical Processes in Complex Networks- H204 Introduction to Quantum Field Theory- H301 Classical Text Readings- H302 Structural Engineering Design Studio- H-101 Digital Systems and Microcontrollers-(Section A, B&C)- SH1, SH2 & SH3	Structural Dynamics- H101 Introduction to Linguistics-1- H102 Robotics: Dynamics and Control- H104 Automata Theory (H1)- H105 Data and Applications (Lecture) (H2)- H105 Wireless Communications- H202 Data Structures & Algorithms for Problem Solving- H203 Modern Complexity Theory- H204 Advanced NLP- H205 Human Sciences Lab-1 (H2)- H302 Computing in Sciences-1(H2)- H303 Spatial Thinking and Practice- H304 Networks, Signals and Systems- SH1 Advanced Computer Networks- SH2 Environmental Science and Technology- CR1	LUNCH BREAK	Mobile Robotics- H101 Diffusion Models For Generative AI- H102 Embedded Systems Workshop (Lecture)- H105 Intro to Cognitive Science- H201 Scientific Visualization- H202 Signal Detection and Estimation Theory- H203 Programming AI Accelerators- H204 Language Models and Agents- H205 Retrofitting of Existing Structures- H301 Intro to Neuroeconomics- H302 Autonomous Software Engineering(H2)- H303 Bioinformatics (H1)- H103 Bioinformatics-II (H2)- H103	Algorithms and Operating Systems- H101 System Thinking and Design (H1)- H102 NLP for Healthcare- H201 Topics in AI for Healthcare- H202 Advanced Operating Systems- H203 Service design (H2)- H204 Advanced Remote Sensing- H301 Micro and Nano Fabrication Technology for IC- H302 Information Retrieval & Extraction- H303 Principles of Programming Languages- SH1	Early Stage Funding for Startup (H2)- H101 Understanding Public and Digital History- H102 Readings from Hindi Literature- H203 Basics of Ethics (H1)- SH2
Tue (B)	Product Marketing- H101 Quantum Materials and Devices- H102 Biomolecular Structure Interaction & Dynamics- H201 Computational Linguistics II- H202 Physics of Early Universe- H203 Software Systems Development- H204 Theory of Elasticity- H103 Open Quantum Systems and Quantum Thermodynamics- H302 Real Analysis--(Section A, B&C) - SH1, SH2 & SH3	Advanced Memory Circuits and Systems- H101 Finite Element Methods- H102 Operating Systems and Networks- H105 Advanced Design of Steel Structures- H201 Cyber GIS: Geospatial Web and Geo BI- H202 Behavioral Research Experiment Design- H203 Information, Computation, and Learning- H204 Principles of Semiconductor Devices- H301 Introduction to Game Theory- H302 Maths for Computer Science 1-Probability and Statistics (H1)- H303 Maths for Computer Science 2 - Linear Algebra (H2)- H303 Quantum Mechanics- H304 VLSI Design- SH1 Discrete Structures (Section B)- SH2	Thinking and Knowing in the Human Sciences – III- H101 IoT Workshop- H102 Language and Society- H201 Complex Analysis- H202 Learning and Memory- H203 Foundations for Signal Processing and Communication- H103 Making of the Contemporary India- H302 Advanced Probability Theory- H303 Probability and Random Processes- SH1 Discrete Structures (Section A)- SH2		FPGA based Accelerator Design- H101 Structural Safety of Built Infrastructure- H102 Spatial Informatics- H103 Distributed Systems- H105 Thinking and Knowing in the Human Sciences – II- H201 Speech Analysis and Linguistics- H202 Research in Information Security- H203 Quantum aspects of Cryptography – H204 Topics in Software Engineering- H301 Social Science Perspective on HCI- H302 Digital VLSI Design- SH3 Systems Thinking- SH2	Identity and Economic Development- H101 Gender and Society- H202 Spectroscopy(H1)- H201 Chemical Kinetics and Reaction Dynamics (H2)- H201 Music Workshop- N328 Introduction to Economics- H204 Introduction to History- H301 Earth System Science & Modeling- B4-302	Mechanistic Interpretability of Language Models(H2)- H101 Introduction to UAV Design- H102 Statistical Methods in AI- H105 Introduction to Neural and Cognitive Modelling- H201
Wed (C)	AI for Product Managers (H2)- H101 Advanced Computer Architecture- H204 Design for Social Innovation- H104 Market Research and Customer Validation (H1)- H203 Basics of Ethics (H2)- SH2 Optoelectronics and Integrated Photonics- B6-309	Probability and Statistics- H105 Environmental Humanities- H201 Introduction to Psychology- H202 Introduction to Sociology- H301 Product Management- H302 English - H103 Arts-1 (H1 & H2)- N312 & 314, 328, 329 & 332	Science 1(Section A UG2-CSE/D)- H105 Science 1 (Section B -UG2-ECE/D, UG3-CLD, CHD, CGD)- H205 Value Education I		Free Slot / FSIS		

	8.30-9.55 AM (1)	10.05-11.30 AM (2)	11.40-1.05 PM (3)	1-2 PM	2:00-3:25PM (4)	3:35-5:00PM (5)	5:10-6:40PM (6)
Thu (A)	Computer Problem Solving- H101 Earthquake Resistant Design of Masonry Structures- H103 Algorithm Analysis and Design- H105 CMOS References and Regulators- H201 Digital Image Processing- H203 Data Analytics I- H205 Design Thinking- H301 Quantum Error Correcting Codes- H302 Computer Programming-(Section A, B&C)- SH1, SH2 & SH3	Quantum Information Science- H102 Signal Processing- H105 Introduction to Biology- H201 Computer Aided Drug Design- H202 Chemistry Topics for Engineers- H203 Dynamical Processes in Complex Networks- H204 Introduction to Quantum Field Theory- H301 Classical Text Readings- H302 Structural Engineering Design Studio- H101 Digital Systems and Microcontrollers-(Section A, B&C)- SH1, SH2 & SH3	Structural Dynamics- H101 Introduction to Linguistics-1- H102 Robotics: Dynamics and Control- H104 Automata Theory (H1)- H105 Data and Applications (Lecture) (H2)- H105 Wireless Communications- H202 Data Structures & Algorithms for Problem Solving- H203 Modern Complexity Theory- H204 Advanced NLP- H205 Human Sciences Lab-1 (H2)- H302 Computing in Sciences-1(H2)- H303 Spatial Thinking and Practice- H304 Networks, Signals and Systems-SH1 Advanced Computer Networks-SH2 Environmental Science and Technology-CR1	LUNCH BREAK	Mobile Robotics- H101 Diffusion Models For Generative AI- H102 Intro to Cognitive Science- H201 Scientific Visualization- H202 Signal Detection and Estimation Theory- H203 Programming AI Accelerators- H204 Language Models and Agents- H205 Retrofitting of Existing Structures- H301 Intro to Neuroeconomics- H302 Autonomous Software Engineering(H2)- H303 Bioinformatics (H1)- H103 Bioinformatics-II (H2)- H103	Algorithms and Operating Systems- H101 System Thinking and Design (H1)- H102 NLP for Healthcare- H201 Topics in AI for Healthcare- H202 Advanced Operating Systems- H203 Service design (H2)- H204 Advanced Remote Sensing- H301 Micro and Nano Fabrication Technology for IC- H302 Information Retrieval & Extraction- H303 Principles of Programming Languages-SH1	Early Stage Funding for Startup (H2)- H101 Understanding Public and Digital History- H102 Readings from Hindi Literature- H203 Basics of Ethics (H1)-SH2
Fri (B)	Product Marketing- H101 Quantum Materials and Devices- H102 Biomolecular Structure Interaction & Dynamics- H201 Computational Linguistics II- H202 Physics of Early Universe- H203 Software Systems Development- H204 Theory of Elasticity- H103 Open Quantum Systems and Quantum Thermodynamics- H302 Real Analysis--(Section A, B&C) - SH1, SH2 & SH3	Advanced Memory Circuits and Systems- H101 Finite Element Methods- H102 Operating Systems and Networks- H105 Advanced Design of Steel Structures- H201 Cyber GIS: Geospatial Web and Geo BI- H202 Behavioral Research Experiment Design- H203 Information, Computation, and Learning- H204 Principles of Semiconductor Devices- H301 Introduction to Game Theory- H302 Maths for Computer Science 1-Probability and Statistics (H1)- H303 Maths for Computer Science 2 - Linear Algebra (H2)- H303 Quantum Mechanics- H304 VLSI Design-SH1 Discrete Structures (Section B)-SH2	Thinking and Knowing in the Human Sciences – III- H101 IoT Workshop- H102 Language and Society- H201 Complex Analysis- H202 Learning and Memory- H203 Foundations for Signal Processing and Communication- H103 Making of the Contemporary India- H302 Advanced Probability Theory- H303 Probability and Random Processes-SH1 Discrete Structures (Section A)-SH2		FPGA based Accelerator Design- H101 Structural Safety of Built Infrastructure- H102 Spatial Informatics- H103 Distributed Systems- H105 Thinking and Knowing in the Human Sciences – II- H201 Speech Analysis and Linguistics- H202 Research in Information Security- H203 Quantum aspects of Cryptography – H204 Topics in Software Engineering- H301 Social Science Perspective on HCI- H302 Digital VLSI Design-SH3 Systems Thinking-SH2	Identity and Economic Development- H101 Gender and Society- H202 Spectroscopy(H1)- H201 Chemical Kinetics and Reaction Dynamics (H2)- H201 Music Workshop-N328 Introduction to Economics- H204 Introduction to History- H301 Earth System Science & Modeling-B4-302	Mechanistic Interpretability of Language Models(H2)- H101 Introduction to UAV Design- H102 Statistical Methods in AI- H105 Introduction to Neural and Cognitive Modelling- H201
Sat (C)	AI for Product Managers (H2)- H101 Advanced Computer Architecture- H204 Design for Social Innovation- H104 Market Research and Customer Validation (H1)- H203 Basics of Ethics (H2)-SH2 Optoelectronics and Integrated Photonics-B6-309	Probability and Statistics- H105 Environmental Humanities- H201 Introduction to Psychology- H202 Introduction to Sociology- H301 Product Management- H302 English - H103 Arts-1 (H1 & H2)- N312 & 314, 328, 329 & 332	Science 1(Section A UG2-CSE/D)-H105 Science 1 (Section B-UG2-ECE/D, UG3-CLD, CHD, CGD)-H205		Science Lab 1 (2-5pm) - A3-301		
					Free Slot / FSIS		
					Business Fundamentals - SH1
